farby występują w następujących seriach  
inks are available in following sets

EC = eureco    CF = cartoflex    SN = siconyl    SPT = sicoplast  
 SP = sicoprint    TPP = polipro    SX = sicutex    OT = opatex  
 AS = aquaset    UV = uvilux    UVPL = uviplast    PX = sicepox

## Farby metalizowane Metallized inks

|                                                                                  |                                                                               |                                   |
